WHO ARE WE?

Youth Time Magazine is a daily news media platform founded 10 years ago by Julia Kinash with the aim of providing inspiring, useful content that follows the development of the newest trends in the field of education, business, work, and skills.

In short, Youth Time Magazine is written by young people, for young people. We are a magazine with a mission.
Our followers are future leaders!
There is no country where the foot of Youth Time Magazine hasn’t stepped in!
We have hosted more than 200 international authors, published more than 690,000 printed versions of our magazine, written 8,000 articles, positively impacted more than 5,000 people and we are planning to do much more.
We want to raise awareness of global issues and provide relevant information on where to find the answers for their questions.
WE ARE THE SPARK

We are putting all of our efforts into providing the necessary tools for young people to make a positive impact in the world.
The Youth Time Magazine team is based in Prague in the historical capital of the Czech Republic, but our words are flying all over the globe and catching the attention of young people no matter where they are based.

Every day we are trying to deliver our stories to the whole world and day by day we are getting more and more people from all parts of the world including United States, United Kingdom, India, Pakistan, Philippines, Serbia, Germany, Italy, Austria, Malaysia, Indonesia, Russia, China. Australia, Croatia, Iceland and Norway. There is no country where the foot of Youth Time Magazine haven’t stepped in.
The Magazine covers stories of young successful entrepreneurs while trying on a daily basis to offer useful skills for our readers’ careers, giving opportunities for grants and competitions, volunteering and universities.

We also offer alternative perspectives and new ways of thinking as well as ideas in traveling, working, and personal development.
We want to provide useful information that will help our readers have a better understanding of global issues, providing possible solutions and representing people who are making positive change in the world.
